Susheel Sharma

Senior Software Engineer with 5+ years of experience in developing innovative software solutions and enhancing team collaboration. Proficient in JavaScript, Selenium, and Django, recognized for optimizing algorithms and implementing automation testing to elevate software quality and user satisfaction. Passionate about advancing in automated testing and modern web technologies, aiming to drive impactful projects with a focus on continuous improvement and innovation.

WORK EXPERIENCE

Axtria Ingenious Insights

Senior Software Engineer   06/2022-Present

- Develop software solutions, enhancing client satisfaction and operational efficiency.
- Collaborate with teams, delivering reliable software products and boosting team synergy.
- Design efficient code, improving application performance and maintainability.
- Implement automation testing, increasing software quality and reducing errors.
- Awarded Bravo Award for outstanding contributions and recognized as Best Performer.
- Led the design and deployment of scalable software solutions, achieving substantial improvements in performance and client satisfaction.
- Spearheaded the integration of automation testing frameworks, significantly enhancing software reliability and reducing QA time.
- Mentored junior developers, promoting a collaborative environment and contributing to their professional growth and team cohesion.
- Enhanced software performance by optimizing algorithms, leading to noticeable results in processing speed and user satisfaction.

Cognizant

Software Analyst   01/2021 - 06/2022

- Developed and implemented automated software testing to ensure the quality of new code and reduce the number of production issues.Conducted thorough analysis of system performance, identifying bottlenecks and implementing solutions that led to improved application efficiency.
- Spearheaded the integration of new testing frameworks, streamlining workflows and fostering collaborative efforts among development teams.
- Maintained comprehensive documentation for testing protocols, ensuring clarity and compliance with corporate standards while facilitating knowledge sharing.
- Assisted team members in adopting best practices for software development, cultivating a supportive environment that encouraged continuous learning.
- Enhanced software testing protocols, reducing production issues significantly and boosting overall application reliability.

HastagSoft

Web Developer   01/2020 - 01/2021

- Developed a modular, single-page web application that incorporated responsive design principles.Engineered a dynamic user interface, enhancing user engagement and providing a seamless browsing experience across devices.
- Implemented version control systems to streamline collaboration, significantly reducing code conflicts and accelerating development cycles.
- Conducted user testing sessions to gather feedback, leading to targeted improvements that boosted application usability and satisfaction.
- Maintained comprehensive documentation of code changes and updates, ensuring clarity and facilitating future development efforts.
- Collaborated with cross-functional teams to troubleshoot issues, fostering a team-oriented environment and enhancing project outcomes.

EDUCATION

Computer Science Engineering

Bachelor of Technology   May 2016 - May 2020
  • Hyderabad,Telangana

MPC

MPC   May 2014 - May 2016
  • Hyderabad,Telangana

━━━━ **PROJECT**

• **Oracle Banking Platform**

• • **SalesIQ**

• **DataMax**

• **Performance Testing**

• **Automated Regression Testing Suite**

• **Cross-Browser Compatibility Testing**

• **Software Development Quality Assurance**

• **Web Designing**

━━━━ **SKILLS**

• Programming Languages
• Java, Python, JavaScript, CPP
• Test Automation Tools
• Selenium, Cypress, TestNG Junit, JMeter
• Version Control
• Git, Jenkins,JIRA
• Database Technologies
• SQL, MongoDB
• Web Design
• HTML, CSS, JavaScript, TypeScript, Django
